

Amendments to the Specification

Please amend the paragraph on page 4, lines 20-25 as follows (inserting trademark related indications therein):

Display electronics of the present invention are illustrated in FIG. 3. The display electronics 36 includes a decryption integrated circuit 38 and a display integrated circuit 40. The display electronics 36 form a portion of the display apparatus 26. The display circuit 40 includes a driver circuit 42 and a Grating Light Valve™ (GLV®) 44. The decryption circuit 38 is coupled to the driver circuit 42 of the display circuit 40. The driver circuit 42 is coupled to the GLV 44.
